

Dockerfile

```
FROM node:lts
```

```
WORKDIR /app
```

```
COPY package*.json ./
```

```
RUN npm install
```

```
COPY . .
```

```
EXPOSE 3000
```

```
CMD [ "npm", "run", "dev" ]
```

index.js

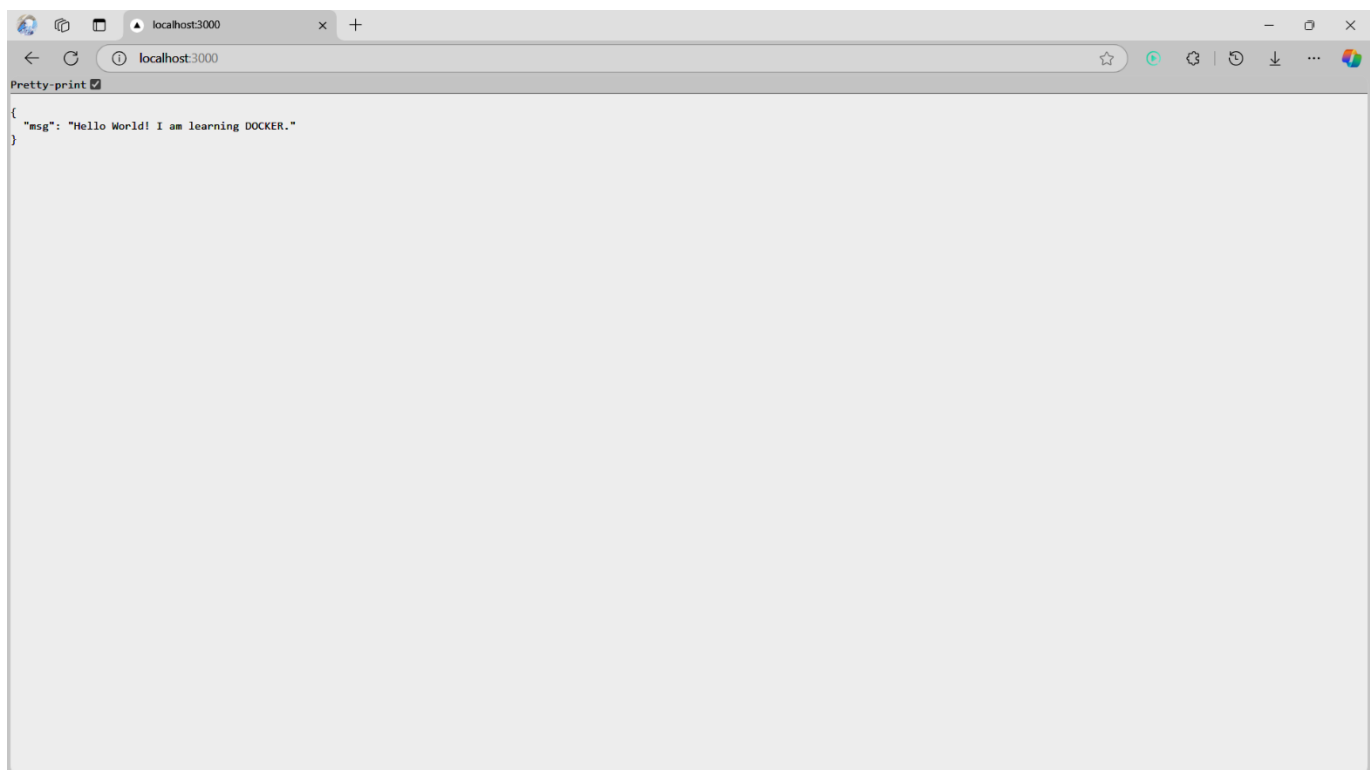

```
const express = require('express');
```

```
const app = express();
```

```
app.get('/', (req, res) => {
```

```
  return res.json({msg: 'Hello World! I am learning DOCKER.'});  
});
```

```
app.listen(3000, console.log('Server is running on port 3000'));
```
